

Paper Flower

INSTRUCTIONS:

Make the flower by folding the stem (D) in half lengthways and stick together, then fold the round ends back forming a circle to support the flower. Fix the leaves (C) to the top of this circle, then stick the flower (B) on top of the leaves, remembering to raise the petals slightly. Finally, form (A) into a square and fold the tabs inwards to sit in the centre of the flower.

Flower cone

TO MAKE THE FLOWER CONE:

Print patterned paper onto A4 (thin card, if possible)

Roll into a cone shape and secure the loose ends with glue or sellotape

Fill with flowers of your choice (you can adjust the size of the cone to suit the size of your bunch)

Present to your Mum on Mother's Day morning (with breakfast, of course!)
